

Prestigious Scholarships Advising, inaugurated in June 2015, supports the aspirations of a growing community of high-performing undergraduate and graduate students at Oregon State, providing them with experiences that support success at OSU and beyond.

"Prestigious Scholarships" are nationally competitive awards that involve long-term application processes and institutional nomination or endorsement. OSU students who commit to engage in these competitions receive highly personalized advising on their applications for Rhodes, Fulbright, Marshall, Gates Cambridge, Truman, Goldwater, Udall, Gilman and others. Applying for these awards can be a gateway to new experiences, new opportunities, and new successes.
